WATER, AIR, AND SOIL POLLUTION / *Volume 73 Nos. 1/4 February 1994*

WILLIAM BYERS, MARTIN B. MEYERS, and DONNA E. MOONEY / Analysis of Soil from a Disused Gasworks 1

D. C. BAIN, A. MELLOR, M. J. WILSON and D. M. L. DUTHIE / Chemical and Mineralogical Weathering Rates and Processes in an Upland Granitic Till Catchment in Scotland 11

BJØRN O. BERTHELSEN, LAILA ÅRDAL, EILIV STEINNES, GUNNAR ABRAHAMSEN and ARNE O. STUANES / Mobility of Heavy Metals in Pine Forest Soils as Influenced by Experimental Acidification 29

M. A. A. PAALMAN, C. H. VAN DER WEIJDEN and J. P. G. LOCH / Sorption of Cadmium on Suspended Matter Under Estuarine Conditions; Competition and Complexation with Major Sea-Water Ions 49

R. VAN EK and G. P. J. DRAAIJERS / Estimates of Atmospheric Deposition and Canopy Exchange for Three Common Tree Species in the Netherlands 61

JUDITH A. MEYER SCHULTZ / Urban Wet Deposition Nitrate: A Comparison to Non-Urban Deposition 83

CHARLES HAGEDORN and R. B. RENEAU, Jr. / Evaluation of Deniotrification in Two Shallow-Placed Low Pressure Distribution Systems 95

DONALD K. McNICOL and MARK L. MALLORY / Trends in Small Lake Water Chemistry Near Sudbury, Canada, 1983–1991 105

G. R. DOSHI, S. N. JOSHI, and K. C. PILLAI / Determination of ^{129}I in Water Air Samples Near a Reprocessing Plant by Neutron Activation Analysis 121

M. J. S. BELLEMAKERS, M. MAESSEN, and J. G. M. ROELOFS / Effects of Liming on Water Chemistry in Shallow Acidified Pools in the Netherlands: Enclosure Experiments 131

MA QIFU and FRANK MURRAY / Responses to Sequential Exposure to SO_2 and Salinity in Soybean (*Glycine max* L.) 143

GEORGIA TURNER, DEBORAH CRAWFORD, RICHARD J. WATTS, and JOHN H. ZIRSCHKY / Phosphorus Removal From Secondary-Treated Wastewater Using Overland Flow 157

MARK J. PETERSON, GEORGE R. SOUTHWORTH, and KENNETH D. HAM / Effect of Sublethal Chlorinated Disharges on PCB Accumulation in Transplanted Asiatic Clams (*Corbicula Fluminea*) 169

MARIA PIOTROWSKA and STANISLAW DUDKA / Estimation of Maximum Permissible Levels of Cadmium in a Light Soil by Using Cereal Plants 179

WEN-YUAN HUANG, LEROY HANSEN, and NOEL D. URI / The Application Timing of Nitrogen Fertilizer 189

RICHARD P. GUYETTE and BRUCE E. CUTTER / Barium and Manganese Trends in Tree-Rings as Monitors of Sulfur Deposition 213

A. OSMAN AKAN / Modeling Enrichment of Soluble Pollutants 225

E. SAUR and C. JUSTE / Enrichment of Trace Elements from Long-Range Aerosol Transport in Sandy Podzolic Soils of Southwest France 235

ROSA CALVO DE ANTA, R. and ANGEL PEREZ OTERO / Soils Affected by Acid Mine Waters in Galicia (N.W. Spain) 247

TERRY A. HAINES and WILLIAM G. BRUMBAUGH / Metal Concentration in the Gill, Gastrointestinal Tract, and Carcass of White Suckers (*Catostomus commersoni*) in Relation to Lake Acidity 265

M. A. NAIM, N. SHAKER, E. M. SALEM, A. EL-GAMAL, and M. EL-RAEY / Tritium Radioactivity in the Aquatic Environment over Alexandria Region, Egypt 275

G. RIISE, B. SALBU, B. R. SINGH, and E. STEINNES / Distribution of ^{109}Cd Among Different Soil Fractions Studied by a Sequential Extraction Technique 285

P. A. STEVENS, D. A. NORRIS, T. H. SPARKS, and A. L. HODGSON / The Impacts of Atmospheric N Inputs on Throughfall, Soil and Stream Water Interactions for Different Aged Forest and Moorland Catchments in Wales 297

E. FORGET, F. COURCHESNE, G. KENNEDY, and J. ZAYED / Response of Blue Spruce (*Picea pungens*) to Manganese Pollution from MMT 319

ALBA PUSINO, WEIPING LIU, SALVATORE PETRETTO, and CARLO GESSA / Adsorption and Desorption of Dimepiperate by Soils 325

G. MERRINGTON and B. J. ALLOWAY / The Flux of Cd, Cu, Pb and Zn in Mining Polluted Soils 333

N. K. GHADDAR and A. M. NAWWAR / High Pressure Waterjets for Oil Containment in Calm and Wavy Waters; A Parametric Study 345
LAURIER POISSANT, PIERRE PAGÉ, and PATRICK BÉRON / Analysis of Rainwater Qualtiy Variability on Mesoscale: Case of the Montreal Island 363
Book Review 375
